ADDRESSING THE NEEDS OF
REFUGEES FROM BURUNDI

Phil, Gervais, Valentine, Felibien, Pete, Francois

The Clinic is open!

This is the queue at the open doors of the new clinic at Nyembuye. As dusk falls, people from the local area are still waiting to get some much-needed medical attention.

Inside the clinic, Janvier our doctor gives an injection to a child. We have been able to operate provisionally for the last few months, and now we are officially open. Already, one mum in labour has reached the clinic, and two lives have been saved...

Ceremony next week

Sally, Steve and his wife Diane are travelling down for the official opening ceremony on Friday June 26th, and we will be reporting back on how things are going, hopefully with lots of pictures to show. We'll have a few days to talk through progress in other areas too, and we'll have a lot more to say in our next newsletter.
